EXAMINER'S COMMENTS

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method for using an elastomeric injection molded dome cap sensor by variably depressing the dome cap, reading the sensor's active element as being in one of three states, and storing that as digital data, the active element being made of pressure sensitive variable conductance material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
